

Indiana's law works! I don't want to purchase anything from anyone that disturbs my personal time. When I want something, I'll go and buy it. Commercials on TV and in the newspaper tell me what is new and keep me up on what I will need or want. Please consider a strong no-call law. There is too much rage now...don't add to it by disturbing nice people at home trying to unwind and relax. It won't be good for anyone's economy!
